Due to the complexities associated with the production of detailed characteristics estimates at the state and county levels, the values of the estimates at lower levels of geography may not necessarily sum to estimates at higher levels of geography. In addition, further complications arise when producing characteristics estimates for the District of Columbia. Due to its unique status, the population total presented here is the sum of the characteristics for the District of Columbia and does not match the official population total previously released. We apologize for any inconvenience this may cause.
